

Procedures

Pre-Screening

- Eligibility consultation
- Consult with our Doctor to assess the eligibility and effectiveness of Stem Cells before treatment.

Optional Antioxidants

- Based on need
- This is an optional step, and the doctor will prescribe based on your condition.

Cell Culture

- MSC prep
- We do provide fresh cultured cells and the process takes about 5 - 7 days.

Cell Administration

- Stem Cell Treatment
- Reintroduce the freshly cultivated activated Stem Cells back into the body through the systemic or target site.

PREPARATION & AFTERCARE

- **No cancer/infections/antibiotics/drugs**
- **No pregnancy/breastfeeding**
- **Avoid alcohol, smoking, and exertion**
- **Take vitamins & rest post-treatment**
